

# CRIMP CONNECTORS – SEAMLESS AND CENTER STOP

## SPECIFICATIONS:

- These high-quality **seamless** copper crimp connectors feature a center stop for precise wire centering. Their seamless design ensures they will not split, even when double crimped.
- They are available for a variety of wire sizes, including #10-12-14, #8, #6, #4, and #2.
- Each connector is available in convenient bag quantities to suit various project needs. Smaller quantities, such as 6, 12, or 25 per bag, are ideal for smaller installations, while larger bags of 50 or 100 are ideal for bulk use.
