

MERRILL/BRADY NON-REPAIRABLE AIR VOLUME CONTROLS

SPECIFICATIONS:

- Includes a thread for tubing connection to a 1/8" pipe (not 7/16" - 24).
- Designed for maximum tank capacities ranging from 80 to 120 gallons, these controls are available with tank connections of 1/4" MIP and 3/8" MIP.
- The non-repairable construction ensures reliable, long-term performance.

No Lead

RATINGS

- Max Pressure: 150 PSI
- Max Temp: 140°F
