

INSERT FITTINGS – HEX BUSHING NO-LEAD BRONZE

SPECIFICATIONS:

- Crafted with precision engineering, this no-lead hex bushing is the ideal solution for male iron pipe (MIP) to female iron pipe (FIP) connections, offering a secure, leak-free fit with easy installation and premium quality.
- Made from durable, corrosion-resistant no-lead bronze, this hexagonal bushing ensures long-lasting performance, making it suitable for a variety of piping applications.
- The sharp threads ensure a tight and secure connection, reducing the risk of leaks and ensuring a reliable seal.
- The hex shape provides an easier grip and torque during installation, making it more convenient to tighten and secure.
- This hex bushing allows connections between copper, brass, plastic, aluminum, and welded steel pipes.
- The maximum pressure and temperature ratings depend on the material and specifications of the pipe used, ensuring compatibility with diverse systems.
