

SUBMERSIBLE CABLE GUARD

SPECIFICATIONS:

- The submersible cable guard protects submersible wire from scraping against the well casing. The wire can either be snapped into the holder from the outside or threaded through the openings.
- Finished in a 6" size, the tabs may be cut to fit 4" or 5" casing.
- The guard is compatible with 1" or 1-1/4" drop pipe.
- Model CG100 is designed specifically for 1" pipe and features a warp-around design.
