

HOSE CLAMP SELECTION GUIDE

Which clamps do I need?

STANDARD WATER SYSTEM

- Irrigation
- Plumbing

M67-1 SERIES

★ MOST COMMON ★

MARINE GRADE APPLICATIONS

- Corrosive wet environments
- Extreme corrosion resistance

M677 OR M64 SERIES

NEED A SMALL CLAMP?

- Small-diameter applications
- 1/4" hex head screw

M62M OR M62P SERIES

COMPARE AT A GLANCE

SERIES	BEST FOR
M62M	Small-diameter applications
M67-1 ★ MOST COMMON	Most applications and standard water-system use
M677	Marine-grade and underground applications
M64	Heavy-duty marine and underground applications 1/4" hex head screw
M69	Extra-heavy-duty applications in multiple make clamp any size

ONE LAST STEP

Measure the outside diameter (OD) of the hose, pipe, or fitting.

Choose a clamp whose stated size range includes that measurement.
