

# ECONOMY STANDARD CLEAR TUBING KITS

## SPECIFICATIONS:

- Inner adhesive firmly bonds to the wire, creating a secure and long-lasting connection. Merrill shrink tubes stay in place and cannot slide off the splice after installation, unlike some competitors.
- Adhesive is evenly distributed throughout the tube, not just sealant. This ensures the perfect amount for a strong bond without excessive globs at the ends, setting Merrill apart from other brands.
- Clear tubing design allows for easy visual inspection during and after installation, ensuring a complete bond to the wire.

ECONOMY STANDARD CLEAR TUBING KITS DIMENSIONS						
Part No.	Tube Qty.	Tubing Size	Crimp Qty.	Crimp Conn.	Wire Sizes	Approx. Wt./Lbs.
ICSK3832	2	3/8" x 3"	2	1014	#10-12-14	0.03
