

M62M SERIES - USA CLAMPS

STAINLESS STEEL - 1/4" HEX HEAD SCREW

SPECIFICATIONS:

- All components are proudly 100% manufactured in the USA.
- Each component is made from high-quality stainless steel, including the 5/16" wide 300 Series stainless steel band and housing, and a 400 Series 1/4" hex head stainless steel screw.
- Unlike imported clamps, which may cause leaks due to their irregular shape and crimped, wider, weaker housing, Merrill clamps maintain a perfectly round shape inside the band of the clamp. This ensures a secure fit and reduces the risk of leaks.
- Merrill clamps have stronger housing that allows more torque on band, providing a tighter fit and seal to insert.
- The M62M Series offers a larger size range, ensuring that the clamps open and close efficiently to fit various application, whereas imported clamps may not open wide enough or close tightly enough.
- Although Merrill clamps may be priced higher than imported clamps, their round design and accurate size range ensure reliable and effective performance.
