

M69 SERIES - CLAMPS

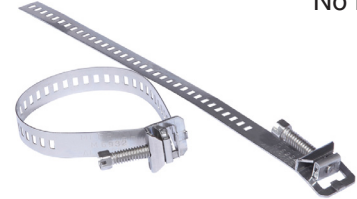

ALL 304 STAINLESS STEEL - DUO-LOC

SPECIFICATIONS:

- Each component is constructed from all 304 stainless steel, including the 1/2" wide 300 Series stainless steel band, high torque housing, and hex head screw.
- Designed for extra tough installations, the clamp features double locking security and high band tension for higher sealing pressure.
- The M69 Series DUO-LOC clamps come flat for easy stocking and storage. A DUO-LOC user is never without the right size clamp, as one size (e.g., M6932) accommodates 1/2" thru 2" pipe.
- Unlike imported clamps, which may cause leaks due to their irregular shape and crimped, wider, weaker housing, Merrill clamps maintain a perfectly round shape inside the band of the clamp. This ensures a secure fit and reduces the risk of leaks.
- Although Merrill clamps may be priced higher than imported clamps, their round design and accurate size range ensure reliable and effective performance.
