

WELL SEAL SELECTION GUIDE

Find the right well seal in seconds.

1 MATCH THE SEAL TO THE CASING

Measure actual casing I.D. before ordering.

4"

4-1/2"

5"

6"

6-1/4"

Additional sizes available from 2" through 12". | I.D. = Inside Diameter

2 SELECT YOUR PIPE CONFIGURATION

SINGLE DROP PIPE

One pipe passes through the well seal

DOUBLE DROP PIPE

Two pipes pass through the well seal

3 CHOOSE YOUR CONSTRUCTION

CAST IRON

PROVEN DURABILITY

- Painted cast-iron construction
- Split design for easier installation
- Single- and double-drop options

PLASTIC

LIGHTWEIGHT + ECONOMICAL

- High-impact ABS construction
- Solid top plate
- Single- and double-drop options

STEEL TOP

SOLID PLATE CONSTRUCTION

- Painted steel construction
- Solid top plate
- Single-drop options only

BEFORE ORDERING, CONFIRM:

Casing I.D. | Drop-pipe size | Cable tapping | Vent tapping

IMPORTANT: Plastic well seals are not for use with SDR17 casing.
