

PUMP RODS / ROD COUPLINGS

SPECIFICATIONS:

- The solid steel pump rod features a uniform, smooth finish with heavy electro-galvanizing.
- The galvanized hexagon-shaped rod couplings are made from solid bars of cold-rolled steel, ensuring durability and strength.
- All pump rods and rod couplings are available in several variations, including plain end stainless steel, plain end galvanized, threaded both ends stainless steel, threaded both ends galvanized, and threaded and coupled galvanized.
- These products are in stock and available for immediate shipment.

DIMENSIONS			
Part No.	Size & Length	Pieces Per Bundle	Wt./Lbs. Per Bundle
Plain End - Stainless Steel			
71612PE	7/16" x 12'	—	—
Plain End - Galvanized			
38018PE	3/8" x 18'	15	102
71618PE	7/16" x 18'	11	101
38021PE	3/8" x 21'	13	103
71621PE	7/16" x 21'	10	107
12021PE	1/2" x 21'	7	98
58021PE	5/8" x 21'	5	110
Threaded Both Ends - Stainless Steel			
71612TBE	7/16" x 12'	—	—
Threaded Both Ends - Galvanized			
38018TBE	3/8" x 18'	10	68
71618TBE	7/16" x 18'	10	92
38021TBE	3/8" x 21'	10	79
71621TBE	7/16" x 21'	10	107
12021TBE	1/2" x 21'	7	98
58021TBE	5/8" x 21'	5	110
Threaded and Coupled - Galvanized			
38018TC	3/8" x 18'	10	70
71618TC	7/16" x 18'	10	94
38021TC	3/8" x 21'	10	90
71621TC	7/16" x 21'	10	109
12021TC	1/2" x 21'	7	103
58021TC	5/8" x 21'	5	111
