

PARTS KIT “EP” PKEP

E-5000 SERIES

SPECIFICATIONS:

- PKEP is a parts kit designed for E-5000 yard hydrants. It includes valve stem packing, a plunger, and silicone lube.
- Self-lubricating plunger prevents rubber from bonding to the valve body, with the longest operating life in a one piece design.
- Swivel parts permit withdrawal of the rod and plunger without ever digging the hydrant up.

No Lead
