

# PARTS KIT PKRF

## R-6000 SERIES

### SPECIFICATIONS:

- PKRF is a parts kit designed for R-6000 yard hydrants. It includes draw straps, washers, sleeve, packing nut, valve stem packing, plunger, jam nuts, and O-ring.
- Draw straps are made of high-strength 1040 hot-rolled steel reduces wear and eliminates side pull on the operating rod, resulting in longer life.
- 3/8" jam nuts and washers provide a secure assembly.
- The stainless steel rod stem (not included) is polished, which will not cut the Teflon™ packing and packing nut, resulting in longest operating life.
- Self-lubricating plunger prevents rubber from bonding to the valve body, with the longest operating life in a one piece design.
- Swivel parts permit withdrawal of the rod and plunger without ever digging the hydrant up.

No Lead

PARTS KIT DETAILS		
Part No.	Description	Qty.
R-20	Draw Straps	1 Pr.
3/8washer	3/8" Washer (2 Each)	2
R50-S	Sleeve	1
G-30	Packing Nut	1
G-35	Valve Stem Packing	1
