

PVC EXTRA HEAVY SCH. 120 METER COUPLINGS

SPECIFICATIONS:

- The PVC meter coupling is constructed from extra heavy PVC Schedule 120, providing excellent strength and long-lasting durability.
- It is designed for FIP x SLIP (glue end) connections, with chamfered ends that allow for quick and easy starting of threads.
- Tapered pipe threads ensure a secure, watertight connection, while one end features a deep socket for a reliable and easy glued connection.
