

# PVC INSERT FITTINGS – INSERT CROSS

## SPECIFICATIONS:

- The Plastic Insert Cross features lateral plastic pipe-to-pipe insert connections, providing a versatile solution for a wide range of plumbing needs.
- Constructed from durable PVC, it delivers long-lasting performance, making it an excellent choice for both residential and professional plumbing applications.
- The insert cross is designed to efficiently split water flow in four directions from a single pipe, making it ideal for branching connections.
- The maximum pressure and temperature ratings depend on the material and specifications of the pipe used, ensuring compatibility with diverse systems.
