

# PRESSURE RELIEF VALVE GUIDE

FIND THE RIGHT VALVE IN 3 SIMPLE STEPS.

## 1 WHAT TYPE OF SYSTEM ARE YOU INSTALLING?

### NO-LEAD BRASS

- Cold water systems
- Most residential wells
- Most Common

### STAINLESS STEEL

- Corrosion resistant
- Harsh water conditions
- Long-term durability

### HEAVY-DUTY NO-LEAD

- Custom
- High pressure systems
- High flow capacity

### PVC

- PVC tank tees
- Lightweight
- Cold water only

## 2 WHAT PRESSURE SETTING DO YOU NEED?

**75 PSI**

Most standard  
well systems

**100 PSI**

Higher pressure  
systems

## 3 WHAT SIZE DO YOU NEED?

**1/2"**

**3/4"**

**1"**

**1-1/4"**

**1-1/2"**

**2"**

Match valve size to your tank tee or piping size.
