

MERRILL

MANUFACTURING

**Wiring Diagram for the following models:
MPS, MPSHD and MPSXHD**

WARNING – PROFESSIONAL INSTALLATION REQUIRED

ELECTRIC SHOCK, ARC FLASH, EXPLOSION, AND FIRE HAZARD. Incorrect wiring or installation can cause severe injury, death, or property damage.

Install and wire only by a qualified person (licensed electrician or trained pump technician) in accordance with NEC (NFPA 70), all applicable local codes, and Merrill instructions. If you are not qualified, do not install—contact a qualified professional.

Before any work: disconnect and lock out power, relieve system pressure, and verify the circuit is de-energized. Use only marked voltage, current, and pressure ratings, and confirm all wiring and settings match specifications before restoring power.

LEGAL NOTICE

For use by qualified professionals only. The installer and end user are solely responsible for proper selection, installation, operation, and compliance with all applicable codes and standards. Merrill Manufacturing Company assumes no liability for injury, death, or property damage arising from misuse, improper installation, unauthorized modification, or failure to follow applicable codes and these instructions.
