

EXTRA-LONG COUPLINGS WITH O-RING UNION NO-LEAD BRONZE – INSERT FITTINGS

SPECIFICATIONS:

- Crafted with precision engineering, this top-tier no-lead bronze extra-long insert coupling with O-ring union ensures a seamless and secure pipe-to-pipe connection, making pipe repairs quick and effortless.
- Designed for maximum flexibility, this durable repair coupling features two threaded inserts with an O-ring, providing a watertight and reliable seal while eliminating the need for complex repairs. It allows for pipe adjustments without requiring extensive digging, simplifying installation in tight or buried applications.
- The extra-long barb design ensures a tight and secure fit when used with clamps, while the heavy threaded nut pulls the two pipes together for a strong, leak-proof connection.
- Made from corrosion-resistant contractor-grade bronze, it offers long-lasting performance, even in harsh outdoor or underground environments.
- The hex design provides an easier grip and torque during installation.
- Hose clamps (sold separately) ensure a secure and easy installation.
- The maximum pressure and temperature ratings depend on the material and specifications of the pipe used, ensuring compatibility with diverse systems.
