

# DROP PIPE COUPLINGS – STAINLESS STEEL

## SPECIFICATIONS:

- Drop pipe couplings connect threaded pipes to submersible pumps or other threaded pipe applications.
- They feature chamfered ends for quick connection and easy thread starting.
- The tapered pipe threads ensure a positive, watertight connection.
- These couplings are available in stainless steel and extra heavy stainless steel for enhanced durability and strength.

No Lead

DIMENSIONS						
Part No.	Pipe Size	Length Inches	Width Inches	Material	Ctn. Qty.	Approx. Wt./Lbs.
