

INSERT FITTINGS – VENTURI MALE ADAPTERS ZINC-PLATED

SPECIFICATIONS:

- Crafted with precision engineering, the plastic pipe to male iron pipe, zinc-plated steel venturi male adapter connects flexible polyethylene pipes to the barbed end, while the male end fits securely into a female NPT thread.
- The venturi-shaped design with a long shank is ideal for use with well seals. Its long rounded body also makes it suitable for other specialty applications.
- Designed for secure connections, this fitting ensures a smooth transition, making it an ideal choice for a wide range of plumbing applications.
- The steel fitting is zinc-plated for corrosion resistance and can withstand high pressure, ensuring long-lasting and reliable performance
- Featuring an insert barb x threaded design, it provides a secure and efficient pipe connection.
- Its economical design provides a cost-effective solution for both residential and professional plumbing needs.
- Hose clamps (sold separately) ensure a secure and easy installation.
- The maximum pressure and temperature ratings depend on the material and specifications of the pipe used, ensuring compatibility with diverse systems.
