

All kits include: Heat Shrink Tubes • Seamless Crimp Connectors • Adhesive and Sealant Lined Tube (Typically 4")

Creates waterproof #4-14 AWG wire splices for well pump cables, marine applications, and underground electrical repairs.

CLEAR TUBING

See Your Connection

Transparent tubing for easy inspection.

Waterproof Seal

Adhesive lined interior creates a watertight bond.

Reliable Performance

Marine grade polyolefin resists UV, chemicals, and extreme temperatures.

BEST FOR:

Applications where inspection is important.

Multiple sizes and sleeves available.

BLACK TUBING

Maximum Protection

Black tubing provides excellent UV resistance and durability.

Waterproof Seal

Adhesive lined interior creates a watertight bond.

Heavy Duty

Thick wall construction for added strength and abrasion resistance.

BEST FOR:

Outdoor, high-exposure, and heavy-duty applications.

Multiple sizes and sleeves available.
