

VCM SERIES – MULTISIZE VENT CAP

SPECIFICATIONS:

- The well cap provides protection to the exposed portion of the well casing by being tamper-resistant, forming a protective cover from the elements.
- Designed for use with pitless adapters.
- Made from painted heavy cast iron, ensuring durability and resistance to harsh conditions for long-lasting performance.
- Secured with 4 hex head cap screws, providing a strong and reliable connection to the casing.
- Each cap is individually boxed.
