

VC SERIES – VENT CAPS

SPECIFICATIONS:

- The cap provides protection to the exposed portion of the well casing by being tamper-resistant, forming a protective cover from the elements.
- Designed for use with pitless adapters.
- Constructed from all-aluminum casting, the cap provides durability and resistance to corrosion, ensuring long-lasting performance.
- Its 2-cup point socket head set screws create a secure connection to the well casing, preventing leaks and blocking contaminants from entering the system.
